

KEYSPAN ENERGY DELIVERY NEW ENGLAND
D.T.E. 05-68

FIRST SET OF INFORMATION REQUESTS OF THE
DEPARTMENT OF TELECOMMUNICATIONS AND ENERGY TO
KEYSPAN ENERGY DELIVERY NEW ENGLAND

DTE 1-17

Date: February 1, 2006

Respondent: Theodore Poe, Jr.

- Q. Refer to Petition of KeySpan Energy Delivery New England, pursuant to G.L. c. 164, § 691, for approval by the Department of Telecommunications and Energy of its Long-Range Forecast and Requirements Plan for the forecast period 2001/02 through 2005/06, D.T.E. 01-105, at 54 (2002). Has the Company provided an exhibit in its current filing that indicates the areas on the KeySpan system that will require the addition of design-day delivery capability during the forecast period? If not, please provide the Department with such an exhibit. If it has, provide the citation.
- A. To identify within the Company's filing the areas on the KeySpan system (e.g. the Boston, Essex, Lowell and Cape divisions) that will require the addition of design-day and design-year delivery capability during the forecast period, the Company has disaggregated its 'Other Purchased Resource' requirements on Lines 19-22 of its G23-D and G22-D tables, respectively. Please refer to the Company's response to Information Request DTE 1-8 and pages 71-72 of the Company's filing for a description of the 'Other Purchased Resource' supply and its application within the Company's SENDOUT[®] model.
